The Virginia Tech Foundation is a 501(c)(3) nonprofit, non-stock corporation established in 1948. It provides private financial support to enable the forward progress of Virginia Tech. Through successful asset management and the generosity of Virginia Tech alumni and friends, the foundation continues to increase its real estate portfolio, endowment value, and support to university initiatives.

The foundation’s real estate portfolio includes properties across the Commonwealth of Virginia as well as Switzerland. These properties range from ones focused on innovation and economic development, such as the Corporate Research Center and the Virginia Tech Research Center – Arlington; to ones focused on academics, which include the Center for European Studies and Architecture and the Reynolds Homestead; to ones in the travel or recreation business, such as the Pete Dye River Course and the Hotel Roanoke. This diverse portfolio provides program facilities and generates private resources to enable Virginia Tech to invent the future.

A note to our stakeholders

*A message from Ben J. Davenport Jr., chairman of the Virginia Tech Foundation Board*

I first became an investor in Virginia Tech way back in 1965, though I did not really think of myself in that way at the time. I was a year out of college, received a request for support from the Alumni Annual Fund, and sent in $5 to give back to the school that had provided me so many wonderful learning experiences. While I was happy to help, it was not something I spent much time thinking about.

Years later, thanks in no small part to my education at Virginia Tech, I found myself in the fortunate position of being able to make more substantial investments in our university. By then, the dynamic had changed. I had specific philanthropic goals I wanted to accomplish, so I did not simply cut a check, I asked probing questions to make sure those aims could be achieved.

Likewise, when I was invited to serve on the university’s Board of Visitors and, later, on the foundation board, I took my governance responsibilities seriously. While I love my school, I know that the best way I can serve it as a volunteer is not just to cheerlead, but to pay close attention and offer honest feedback.

In the course of serving Virginia Tech, it has been my pleasure to come to know its president, Charles W. Steger. I consider him to be both a colleague and a friend. His persuasive vision for our university and his demonstrated ability to deliver on the initiatives he prioritizes has gone a long way toward keeping me so enthusiastic about staying involved.

One reason Charles’ vision has been so inspiring is its scope. As a proud resident of Southside Virginia, I care deeply about the economy of my region. I appreciate the way Virginia Tech is helping that region, even though it is many hours from Blacksburg, through projects such as the Institute for Advanced Learning and Research, located in Danville. I have also enjoyed seeing the internationalization of Virginia Tech’s operations over the years, which allows it to better prepare its students to thrive in our diverse, ever-shrinking world.

I believe that anyone seeking to make a philanthropic investment should consider higher education. The scale of institutions such as Virginia Tech mean that no matter what type of beneficial change you hope to facilitate, there is likely to be a relevant program.

That said, it takes far more than scale for any organization to make an impact. It takes quality leadership and a culture of excellence. Virginia Tech has been fortunate to have both for many years, and I am confident that trend will continue after the new president takes office.
Annual reports typically focus on just the past fiscal year. But due to Virginia Tech President Charles W. Steger’s announcement in May that he will step down once a replacement is found, I hope you will give me latitude to begin this message not with details from fiscal 2013, but with a look back all the way to 2000.

In his inaugural speech that year, President Steger laid out his vision of a far more comprehensive Virginia Tech. I recently re-read his speech and was struck by the degree to which the course it charted has come to fruition. I am proud of the extent to which our work at the foundation has helped facilitate what was called for in the speech.

President Steger laid out seven major priorities in his address: advancing among the top tier of research institutions, greater prominence in the arts, student diversity, globalization of our institution, making a greater impact throughout the commonwealth, information technology improvements, and excellence in athletics.

Our foundation has contributed to all these areas through our ongoing efforts to mobilize financial support and make investments that benefit Virginia Tech and those it serves. On the following pages, you will see specific examples of how we have accomplished that. Given that this is an annual report, the examples are indeed drawn from the past fiscal year, but as you read them, I hope you will view them in the context of the progress we have made since President Steger took office.

Since assuming my responsibilities in July 2012, I have come to better appreciate the importance of engaging our many stakeholders. The many millions of dollars our supporters provide each year truly do help provide what President Steger has called “the margin of excellence,” which is why I thought that title was appropriate for this year’s report.

Even for state schools, the funding model for higher education has become contingent on private support and endowment income. In light of that, I’m extremely pleased by our financial results—both raising money and investing it—during fiscal 2013. While those results are listed in detail later in this report, I do wish to mention one highlight: the value of our endowment at the end of the fourth quarter stood at $660.3 million, a record high.

Before becoming university president, Charles Steger was Virginia Tech’s vice president for development and university relations. Those of us at the foundation and in University Development have enjoyed working with a president who is able to inspire donors and understands how a university foundation can help achieve strategic aims.

As we follow the search for a new president, we are both hopeful and confident that a worthy successor will be found to maintain the tremendous momentum our institution has enjoyed during President Steger’s tenure.
The Virginia Tech Foundation

Supporting the ambitious agenda of Virginia Tech, in service to the region, commonwealth, and world

GLOBAL | INCLUSIVE | TECHNOLOGICALLY ADVANCED | COMPREHENSIVE | RESEARCH INTENSIVE | EXCELLENCE IN ATHLETICS | ACROSS THE COMMONWEALTH
“We must expand the international and multicultural perspective in our curricula and in the life of our campus community, if we are to function successfully at the global level in the ways to which we aspire.”

Charles W. Steger, inaugural address, 2000

Matthew Ridgeway was one of many young men and women who spent part of the 2013 academic year studying in Virginia Tech’s facility in Europe, the Center for European Studies and Architecture, which is used by students from a wide variety of majors. The center, known as CESA, is owned by the Virginia Tech Foundation Inc.

A native of Dayton, Va., who is double majoring in architecture and philosophy, Ridgeway said the experience “helped him develop a more internal understanding of architecture,” and was one of the highlights of his academic career so far.

Thanks to a major expansion of the facility that saw significant progress in the past fiscal year, the center should provide an even better experience for the students who take advantage of it starting next year. The $6.5 million project is expected to be complete in spring 2014. It entails a renovation of Villa Maderni, the 18th century building that houses the center, and 6,200 square feet of new construction, including a two-story addition.

The project will provide expanded, state-of-the-art space for classes and design labs; will make it easier to support both the academic and residential functions of the villa; and will add a multipurpose space that can also be used for dining, eliminating the need to have meals in shifts, said University Architect Emeritus Scott Hurst, who, despite retiring, has remained heavily involved in this initiative.

Improving CESA is in keeping with the priority Virginia Tech has put in recent years on expanding access to international education, an effort that saw the number of students taking part in such programs double between 2000 and 2013.

Private support is helping fuel the CESA project. Nearly $2 million has been given to date, and $3 million of additional support is being sought.

Gordon “Sonny” Bowman II of Mount Jackson, Va., who earned his bachelor’s in horticulture from the university in 1956, said he was inspired to donate toward the project because of the tremendous potential for personal growth for students who study in other countries.

“I think it’s smart that Virginia Tech has this facility,” said Bowman, whose family business grows, processes, and packs apples. “Because we have a global market, we have to be able to offer education on a global scale. It broadens the kids that go over there, no question in my mind.”
“Because we have a global market, we have to be able to offer education on a global scale.”

Gordon “Sonny” Bowman II, alumnus and donor, 2013
“The university should, and indeed must, be a place that mirrors our broader society.”

Charles W. Steger, inaugural address, 2000

Reco Charity, a beneficiary of the Virginia Tech Presidential Scholarship Initiative, graduated in May 2013.
Commencement is a highlight of any year at an institution of higher education, but May 2013 was unusually special for people involved in Virginia Tech’s Presidential Scholarship Initiative.

The program provides renewable, four-year scholarships for up to 50 Virginia residents each year, and the conclusion of this past spring semester marked the end of four school years since the first cohort of scholarship recipients arrived.

Among those walking in cap and gown was Reco Charity of Richmond, who became the first member of his family to earn a college degree. Armed with his bachelor’s in finance and minor in political science, Charity was due to begin studying at the Howard University School of Law. He aspires to become a judge.

The need-based scholarship Charity received was established to help students from low-income families afford a world-class education. Preference is given to first-generation college students. Compared to the university’s student body at large, a significantly higher percentage of students in the scholarship program come from underrepresented groups.

Maintaining a representative student body is a priority at Virginia Tech, and the Presidential Scholarship Initiative, along with other donor-funded scholarships, is an important tool in those efforts. During fiscal 2013, donors gave nearly $12.3 million toward scholarships and created 128 endowed scholarship funds. The university’s endowment, managed by the Virginia Tech Foundation Inc., provided nearly $23.7 million in aid to students during the course of the fiscal year.

Charity said he believes diversity brings value to all students at a university.

“The best learning experience is one where there is a compilation of people from different backgrounds and cultures,” he said. “If we all know the same things and experience all the same things in life, how could we possibly learn from one another?”

While the Presidential Scholarship Initiative receives significant university funding, that expense is lessened somewhat by a generous scholarship fund endowed by Paula Robichaud of Palo Alto, Calif., who said she was very proud of and excited for the students from the program who graduated in May.

“When I get letters from the recipients, the vast majority say that the fact that someone who doesn’t know them supports their education makes them want to turn around and do the same thing for others,” said Robichaud, who earned her bachelor’s of health and physical education from Virginia Tech in 1977. “That response is a win-win and one of several reasons I supported the [initiative] in the first place. I love the ripple effect, and it’s very rewarding to be a part of these young people’s academic successes.”

“The best learning experience is one where there is a compilation of people from different backgrounds and cultures.”

Reco Charity, Presidential Scholarship Initiative recipient, 2013
“Today we are in the midst of yet another revolution, brought about by the convergence of the information society and the digital economy, which is changing the ways we do our work, teach our students, conduct research, and relate to one another.”

Charles W. Steger, inaugural address, 2000
Over the past decade, technology has become heavily integrated into every aspect of modern life, whether it involves catching up on the local news, mapping a route for a weekend diversion, or staying in touch with family and friends.

These advances in technology are equally evident in higher education and the business community. Online classrooms, podcasts, and social media have changed the face of teaching and learning at Virginia Tech and around the world. Professors now can link their students in Blacksburg to discussions in locations hundreds of miles away. Campus classrooms, equipped with projection screens, wireless technology, tablets and laptops allow students to participate in group activities that parallel the real-world professional experiences they are likely to encounter as they pursue careers.

Economic growth and development have been similarly influenced by these changes. Today, access to advanced technology is an essential component to developing and sustaining economies, yet many rural communities in Southwest Virginia lacked the necessary infrastructure to excel in this new environment. That is until recently.

In fiscal 2013, the Virginia Tech Foundation completed a project, which was partially funded by a grant from the U.S. Department of Commerce Broadband Technologies Opportunities Program, to extend Virginia’s open-access fiber-optic backbone into the central Appalachian region of the state. The project, a partnership with the Mid-Atlantic Broadband Cooperative, involved laying fiber-optic cable over more than 100 miles of rugged terrain across six counties. As a result, information exchange and connectivity for the region has increased exponentially.

“Connecting Virginia’s research universities to the state’s open-access fiber network effectively puts the resources of those institutions [online], creating access to education and applied research opportunities everywhere that network exists,” said Jeff Crowder, the executive director for strategic initiatives at Virginia Tech Communications Network Services.

The new fiber-optic path creates a digital interstate with Virginia Tech at the epicenter. The university will use the fiber to enhance research, development, public safety, health care, and education programs throughout the region. Virginia Tech also plans to use the fiber to improve high-performance access to national and international high-performance networks, which is required for high-end science and engineering research.

“Connecting Virginia’s research universities to the state’s open-access fiber network effectively puts the resources of those institutions [online], creating access to education and applied research opportunities everywhere that network exists.”

Jeff Crowder, executive director for strategic initiatives at Virginia Tech Communications Network Services, 2013
“[A] new home for the fine and performing arts will culturally enrich the lives of our students, and the entire university community as well. ... Quite simply, it reflects our commitment to being a multi-dimensional, comprehensive university.”

Charles W. Steger, inaugural address, 2000

The role of a great university is not only to educate, but to inspire; to impart not just knowledge, but wisdom.

Increasing the prominence of the arts at Virginia Tech through the construction of a roughly $100 million facility at the northern end of campus is one of the most visible signs of the university’s drive to become an even more comprehensive institution.

At the close of the fiscal year, the amount donated or pledged in support of construction since this project first began was more than $21 million. In April, it was announced that one of the most prominent portions of the facility had been named in recognition of the generosity of two Virginia couples—Nicholas and Fay Street of Bristol and William C. “Jack” and Sandra Davis of Blacksburg.

“We believe this center will contribute a great deal to the university experience for all students by adding a world-class arts component to the mix,” said Fay Street, an attorney who earned her bachelor’s in finance from Virginia Tech in 1977.

Jack Davis, former executive director of the university’s Virginia Center for Civil War Studies, predicted the Center for the Arts will “bring incalculable benefits to the university and to Blacksburg, and it’s going to be a cultural and economic dynamo for the region.”

The Street and Davis Performance Hall accounts for 84,000 square feet of the 150,000-square-foot center. The performance hall encompasses the bulk of new construction for the project, while most of the remainder is extensively renovated space in the former Shultz Hall.

Center for the Arts construction was one of several high-profile projects underway at the northern end of campus in fiscal 2013. The Signature Engineering Building, which donations are also helping fund, proceeded toward its spring 2014 opening target.

Along with support space and the facility’s main lobby areas, the Street and Davis Performance Hall contains the 1,260-seat Anne and Ellen Fife Performance Hall Theatre, also named in recognition of philanthropy.

The Virginia Tech Foundation also opened a 141,953-square-foot office and retail building and an 800-space garage adjacent to what formerly was known as Collegiate Square. The new buildings and the ones that constituted Collegiate Square are now jointly known as North End. Center for the Arts patrons will use the new garage during events, which
should benefit not only the arts center, but retail in North End.

“This entire project is really a collaborative effort,” said Ruth Waalkes, the university’s associate provost for the arts and the center’s executive director. “There is funding from the university and funding from the state, but the private funding that is going into this building is significant.”

“*We believe this center will contribute a great deal to the university experience for all students by adding a world-class arts component to the mix.*”

_Fay Street, alumna and donor, 2012_
“If we look concretely at the institutions with whom we would like to be compared in 10 years, we must increase significantly our level of sponsored research, and we must also increase our scholarly productivity across the board.”

Charles W. Steger, inaugural address, 2000
During her senior year of high school, Patricia Dove's study of how light intensity affects plants won the Grand Award at the Virginia Science Fair and participation in the Westinghouse (now Intel) International Science and Engineering Fair. To do that research, she was happy to have received a small grant of only $19 from the Virginia Junior Academy of Science. In the years since, Dove has never stopped doing notable research, though the recognition and funding it has received have certainly grown.

In April 2013, Dove was formally inducted into the National Academy of Sciences, which is considered one of the highest scientific honors in the world. Papers by Dove and her research group have been cited more than 3,800 times in science publications, and her work has received more than $6 million in funding from the National Science Foundation and the Department of Energy.

Like many of Virginia Tech's distinguished, productive faculty members, Dove holds a named professorship that was endowed through donations. Her position as the C.P. "Sally" Miles Professor of Science honors Sally Miles, a beloved professor and alumnus of Virginia Tech. Such professorships help to advance their holders' scholarly work by providing discretionary funding that allows them to develop new ideas. They are also a powerful tool for recruiting and retaining a world-class faculty, which is critical to growing Virginia Tech's status to one of the world's preeminent research institutions.

During the course of fiscal 2013, donors gave more than $4.3 million to faculty-support funds such as chairs, fellowships, or professorships. The number of named professorships at the university is now greater than 200, and 19 professors were appointed or reappointed to named posts during fiscal 2013.

Such appointments are a highlight of any faculty member's career, as they recognize superior performance. Election to one of the national academies is an even greater honor.

Dove studies how organisms grow minerals into a wide variety of skeletons, teeth, and sensors. She is the fifth Virginia Tech faculty member to be in the National Academy of Sciences while at the university and the only currently active member of the academy. The National Academy of Engineering has selected 16 Virginia Tech faculty members over the past 47 years.

One of Dove's colleagues in the Department of Geosciences has explained the significance of election to the National Academy of Science in their field.

"The Nobel committee doesn't award a prize in earth sciences, although it probably should, because the Earth arguably is the most important field of science of all," University Distinguished Professor and the C.C. Garvin Professor of Geochemistry Robert J. Bodnar has said. "Election to the National Academy of Sciences represents for earth scientists the ultimate recognition that we can ever hope to achieve."

“Election to the National Academy of Sciences represents for earth scientists the ultimate recognition we can ever hope to achieve.”

Robert J. Bodnar, university distinguished professor and the C.C. Garvin professor of geochemistry, in reaction to Patricia Dove being named to the National Academy of Sciences, 2013
“For our intercollegiate teams, we have every hope to sustain a strong, national presence and to provide facilities to assist these programs.”

Charles W. Steger, inaugural address, 2000

At Virginia Tech, athletics is an integral part of the Hokie experience, and the university’s commitment extends to all sports and teams. A dedicated athletic staff, talented student athletes, and the generosity of donors combine to create a winning combination on and off the field. During fiscal 2013, the university received nearly $23 million in donations toward athletics.

In the spring, a portion of Cassell Coliseum was renamed to honor the memory of W.A. and Mae Street. Philanthropic support from the couple’s children funded extensive renovations to the venue, increasing the size and scope of the strength- and sports-performance training room and improving both men’s and women’s locker rooms dedicated to various teams.

In addition, Virginia Tech’s outdoor football practice fields were renamed the Steve Johnson Practice Fields in recognition of the accomplishments and philanthropy of an alumnus from Bristol, Va. A former player, Johnson recently committed $1 million toward construction of an indoor practice facility.

“Athletics instill work ethic, dedication, drive, passion, and persistence,” Johnson said. “Those are qualities that contribute to being productive, whether the ball is snapped and you have to execute a play, or you are at your desk and you have to execute in business.”
“Athletics instill work ethic, dedication, drive, passion, and persistence. Those are qualities that contribute to being productive, whether the ball is snapped and you have to execute a play, or you are at your desk and you have to execute in business.”  

Steve Johnson, alumnus and donor, 2013
For more than 150 years, land-grant colleges have been change agents, expanding opportunities for personal development and encouraging social and community growth. At Virginia Tech, a major goal is to engage innovative thinking and cutting-edge research. But efforts don’t end there. Putting the legs under ideas and creating practical applications for technologies ensure that the university is making a difference for the greater community.

One example is the Virginia Tech Research Center – Arlington. The seven-floor, 144,000-square-foot facility contains exhibits and two restaurants on the first floor. Upper floors house university conference rooms, office space, and computational laboratories, in addition to a private tenant working in collaboration with Virginia Tech.

The Virginia Tech Applied Research Corporation, located on the top floor of the building, was awarded a five-year partnership intermediary agreement with the U.S. Air Force Office of Scientific Research in December 2012 to enhance innovation and collaboration within the Air Force’s basic research program. As the partnership intermediary, the corporation enhances connections between the Air Force, academia, industry, and government to address challenging Air Force problems. The Virginia Tech Foundation plays a significant role in this partnership, providing meeting space within the executive briefing center located in its research center. The Air Force had conducted more than 450 collaborative sessions in the facility as of June 30, 2013, involving hundreds of scientists, engineers, and program managers from across the globe.

Another illustration of Virginia Tech’s commitment to its land-grant mission is the National Tire Research Center that opened in Southside Virginia in fiscal 2013, and contains a force-and-movement machine for research. During its first five months, the facility generated more than $1 million in revenue with that machine alone—double the budgeted projection.

The center, which employs 20 people and currently is a subsidiary of the foundation, is expected to draw employers to the region. In its first 10 years of operation, the center is projected to have an economic impact of $147 million.

The above projects exemplify the land-grant mission embraced by Virginia Tech and its foundation, according to John Provo, director of the university’s Office of Economic Development.

“The roots of the land-grant system are in economic competitiveness—created by placing knowledge in the hands of people who can apply it in the world,” he said. “Collaborations among faculty, students, and industry drive discovery and learning, and give the commonwealth an edge in a global economy.”
“The roots of the land-grant system are in economic competitiveness—created by placing knowledge in the hands of people who can apply it in the world.”

The Virginia Tech Foundation opened a new retail-and-office building and an 800-space parking garage adjacent to the foundation-owned complex that had been called Collegiate Square. The entire collection of facilities was rebranded as **North End**. Both that name and proposed logo for the complex were developed by students as part of a hands-on learning initiative. The new building is 141,953 square feet. Much of it is occupied by administrative units of the university.

*The Hotel Roanoke* completed a comprehensive renovation of the site’s historic restaurant, the Regency Room, in the spring of 2013. Highlights include a new color scheme, carpet, upholstery, and drapes as well as updated menu items, all carefully selected to preserve the ambiance of the original facility. A newly constructed dividing wall creates a more intimate environment with dining space available for private functions. A patio addition offers an al fresco dining option.
The Virginia Tech Corporate Research Center is building for the future. During fiscal 2013, construction at the nationally recognized center included progress on an additional building for the Virginia Tech Transportation Institute, further development of a site for jet engine research, and breaking ground on a multitenant research facility that will house Rackspace, a national cloud-based hosting company.

In addition to taking steps to expand listenership on non-radio platforms, including the Internet and digital devices, WVTF Public Radio added a RADIO IQ signal in Spotsylvania County. Broadcasting from WQIQ 88.3 FM, it is that county’s first local NPR member station. WVTF also achieved national recognition when its Charlottesville bureau chief won awards for journalistic excellence.

Ranked the eighth-best campus course by Golfweek magazine in 2013, the Pete Dye River Course of Virginia Tech has been selected as the site for the 2014 Virginia-West Virginia Men’s Team matches and the 2016 Virginia State Amateur, Virginia’s premier golfing event. The course hosted more than 1,900 guests associated with 49 golf outings sponsored by businesses, community organizations, and the university this year. Semester passes and special daily rates resulted in a 63 percent increase in student play.
Financial highlights

Between July 1, 2012, and June 30, 2013, the value of the foundation’s assets grew by $91.9 million, reaching a total of more than $1.3 billion. Expenditures in support of university projects and programs were $143.3 million, an increase of 5.8 percent compared to the previous fiscal year. Foundation net revenues were $225.9 million, a 64.5 percent improvement on fiscal year 2012-2013. The value of the endowment increased by 11.0 percent, reaching a record high of $660.3 million. All amounts are based on U.S. GAAP reporting standards.

Foundation endowment highlights

As of June 30, 2013, the market value of all endowments held by the Virginia Tech Foundation Inc. totaled $660.3 million. Of that total, $611.2 million was invested in the foundation’s pooled consolidated endowment fund, while $49.1 million was held separately in notes, deeds of trust, gift annuities, contributions receivable, real-estate partnerships, and other miscellaneous endowed assets.

The June 30 allocation of the foundation’s pooled endowment fund consisted of 36.2 percent global equities, 4.9 percent fixed income, 28.0 percent marketable alternative assets (hedge funds), 23.6 percent non-marketable alternative assets (private equity), 5.8 percent real assets, and 1.5 percent cash and cash equivalents. The fund achieved a total return of 14.8 percent for the year ending June 30, and an annualized return of 4.9 percent over the trailing five-year period.

The overriding principle of the foundation’s consolidated endowment program is that funds should be managed so that a gift today will fund a donor’s objective in perpetuity. For example, if a benefactor endows a scholarship, the money is managed to maintain the real value of the endowment and keep pace with inflation. Each gift entering the consolidated endowment fund purchases units analogous to shares in a mutual fund, and a program support payout-per-unit (or dividend) is paid quarterly.

In an effort to maintain the endowment’s purchasing power, the payout rate for program support is adjusted annually to reflect the change in the Consumer Price Index over the preceding calendar year. A 12-quarter average of endowment values is used to smooth out the unit values when determining if program spending falls within the approved range of 3.4 percent to 4.9 percent. Without this moving average, funding might dramatically rise in one year, then fall drastically the next, leaving the beneficiaries of the endowments vulnerable to the volatility of the capital markets.

Policy on endowment management is made by the Virginia Tech Foundation Investment Committee, whose main focus is the allocation and spending of assets. Endowment consultants are retained to assist the investment committee and foundation staff with asset-allocation decisions, the selection and retention of managers, performance monitoring, and related endowment policy issues. To completely diversify its portfolio, management of the fund is allocated among more than 70 management firms, partnerships, and direct equity investments, offering a wide variety of asset classes and investment styles.

Consolidated endowment performance

![Bar chart showing Foundation Endowment and Benchmark performance over different time periods.](chart.png)

* Benchmark is comprised of 60% MSCI Country World Index, 30% Barclays Global Aggregate Index, and 10% FTSE NAREIT Global Index.
University Development

Mobilizing private support to help Virginia Tech and those it serves
An excellent fiscal year

A message from Elizabeth A. “Betsy” Flanagan, Vice President for Development and University Relations

Alumni, friends, faculty, and staff were extremely generous to Virginia Tech in fiscal 2012-2013. Combined, they gave more than $90 million, which is the third-highest yearly total in Virginia Tech history, the most money ever raised in a non-campaign year, and 18 percent more than what was given the previous fiscal year.

The College of Engineering raised $25 million—its second highest total ever. Engineering’s $9.7 million increase over the previous year was the largest gain by any unit in dollar terms. Athletics raised nearly $22.9 million, topping $20 million for a ninth consecutive year.

A majority of college or program fundraising units increased the amount they raised. Combined, the Virginia Tech Carilion School of Medicine and Research Institute raised nearly five times more. The College of Natural Resources and Environment and the Virginia-Maryland Regional College of Veterinary Medicine more than doubled their amounts raised, while the W.E. Skelton 4-H Educational Conference Center at Smith Mountain Lake raised nearly 89 percent more.

Annual Giving raised a record total of $4.9 million, which was a nearly 8 percent improvement over what had been a record total the previous year. More than $15.8 million in estate distributions were received. That was the second-highest amount of such receipts in university history.

Each of our giving societies was joined by many new members. Sixty-three households joined the Ut Prosim Society. One-hundred-sixty-three households qualified for the Caldwell Society. Fifty-nine households joined the Legacy Society. The Pylon Society grew by 2 percent and passed the 13,000-member mark.

More highlights of our excellent fiscal year follow. All of us in University Development, and across Virginia Tech, appreciate our many loyal and generous supporters, whose philanthropy fuels excellence throughout our institution.
Major gift highlights

Outright gifts of $100,000 or more given to the university from July 1, 2012, through June 30, 2013.

Individuals $1 million +

From the estate of Ethel C. Kelly, of Richmond, Va., a distribution honoring her husband, Hugh P. Kelly, by naming Hugh and Ethel Kelly Hall to benefit the Institute for Critical Technology and Applied Science and establishing the Hugh and Ethel Kelly Lecture Series Endowment.

From an anonymous donor to benefit the Signature Engineering Building and the Virginia Tech Corps of Cadets.

From Ray D. and Violet T. Frith, of Bassett, Va., a gift that will ultimately benefit the College of Engineering.

From the estate of George and Marciel Priff, of Salinas, Calif., establishing the George Priff ’42 Alumni Association Fund benefiting the Holtzman Alumni Center and the Virginia Tech Alumni Association.

From the late Margaret Groseclose Skelton, of Blacksburg, Va., providing funding for the Dr. William E. Skelton Alumni Center Fund, the Skelton Scholars Endowment, the Margaret Groseclose Skelton Scholarship in the College of Liberal Arts and Human Sciences, and the Roy E. and Thelma R. Groseclose Scholarship in the College of Agriculture and Life Sciences.

From the estate of Alfred I. Jones Jr., of Richmond, Va., to benefit the President’s Discovery Fund, the Signature Engineering Building, the Bradley Department of Electrical and Computer Engineering, and to establish the A.I. Jones Jr. Scholarship in the College of Engineering.

From Dr. Luther J. Hamlett, of Raleigh, N.C., continuing support for the Luther and Alice Hamlett Scholarship in the College of Science.

From Colonel Horace E. Alphin, of Clifton, Va., providing funding to establish the Colonel Horace E. Alphin Professorship in the department of Dairy Science.

Individuals $500,000-$999,999

From Nicholas and Fay Street, of Bristol, Va., in continuing support of the Center for the Arts at Virginia Tech, the Pamplin College of Business, the Virginia Tech Corps of Cadets, the Virginia Tech Athletic Fund Endowment, and Lane Stadium.

From the late Barbara Fralin Edwards, of Roanoke, Va., an estate distribution to establish the Barbara Fralin Edwards Endowed Chair benefiting the Virginia-Maryland Regional College of Veterinary Medicine.

From the estate of Robert E. Hord Jr., of Richmond, Va., additional distributions to benefit his named scholarship and professorship endowments supporting the departments of mechanical and chemical engineering.

From the late Jean duPont Shehan, of Coral Gables, Fla., a gift to create an endowed President’s Discovery Fund for unrestricted support to the university.

From the estate of Thomas D. Irvin, of Denver, Colo., in abiding support of the Thomas and Frances Irvin Engineering Scholarship and the Thomas and Frances Irvin University Scholarship.

Individuals $250,000-$499,999

From A. Ross Myers, of Worcester, Pa., providing continued support for the Myers-Lawson School of Construction, the Department of Building Construction, and Virginia Tech Athletics.
From Catharine M. and Preston M. White Jr., of Virginia Beach, Va., to benefit the Preston and Catharine White Endowed Professorship for the Myers-Lawson School of Construction.

From the estate of Carl Cartwright Jr., of Tazewell, Va., additional distributions providing support to the Carl Cartwright Jr. Scholarship in athletics.

From James R. and Augustine D. Smith, of Roanoke, Va., continuing endowed support for the Virginia Tech Carilion School of Medicine.

From William C. and Sandra C. Davis, of Blacksburg, Va., a gift in support of the Center for the Arts at Virginia Tech.

From Garnett E. Smith, of Moneta, Va., for the establishment of the P.T. Smith Memorial Golf Training Complex at the Skelton 4-H Center and gifts in abiding support of the Smith Family Special Compassionate Care Fund in the Virginia-Maryland Regional College of Veterinary Medicine, the W.E. Skelton 4-H Educational Conference Center annual fund and welcome center at Smith Mountain Lake, the Taubman Museum of Art, the football locker room, Lane Stadium, and other athletic funds.

From Joan C. and E. Morgan Massey, of Richmond, Va., providing support for the Department of Mining and Minerals Engineering and for research in fine coal processing and dewatering within the College of Engineering.

An anonymous donation to an endowed fund in the College of Engineering that provides funding for programs and research in national security.

From Kimbley and Shari Muller, of Houston, Texas, establishing a trust that will ultimately benefit the College of Science Endowed Dean's Excellence Fund.

From Kelly Scott Woolwine, of Roanoke, Va., continuing support for a university-wide scholarship endowment in honor of his parents, the Richard E. "Dickie" Woolwine Jr. and Charlotte Jordan Woolwine Scholarship, and a contribution to the new field house facility.

From the Eugene V. Fife Family Foundation, of Charlottesville, Va., in support of the VTCC Eugene V. Fife ’62 Scholarship.

From C. Gordon Thornhill Jr., of Boston, Va., a gift benefiting the Thornhill Professorship for Agricultural Trade within the College of Agriculture and Life Sciences.

**Individuals $100,000-$249,999**

From the late A. Edwards Schlieser, of Mechanicsville, Va., an estate distribution to support the university’s general unrestricted fund.

From Kay and Peter Winzenried, of Dallas, Texas., in abiding support of the Moody, Pratt, Minor Endowed Scholarship in the College of Liberal Arts and Human Sciences and the Center for European Studies and Architecture (CESA) at Riva San Vitale.

An anonymous donation to the College of Science Roundtable Dean’s Chair and the College of Science Roundtable Dean’s Operating Fund.

From Dr. Jean G. Fielden, of Vero Beach, Fla., in support of the College of Science.

From the Merryman Family; Frances T. and Floyd W. “Sonny” Merryman Jr., of Rustburg, Va., A. Patricia Merryman, of Rustburg, Va., and Floyd W. Merryman III, of Altavista, Va., gifts to benefit future designations in athletics, the College of Natural Resources and Environment, and the College of Agriculture and Life Sciences, as well as continuing support for the Center for the Arts at Virginia Tech, the VTCC Frances T. and Floyd W. Merryman Jr. ’46 Scholarship, the Virginia Tech Athletic Fund Endowment, Lane Stadium, the football locker room, and the Merryman Central Virginia Public Pupil Scholarship.

An anonymous donation to the Signature Engineering Building.

From an anonymous donor benefiting the Department of Hospitality and Tourism Management.

From the estate of Warren L. Holtzman, of Boca Raton, Fla., a distribution to the Department of Marketing and the Department of Management.
From Mitch and Iris Carr, of Staunton, Va., a gift in support of the College of Agriculture and Life Sciences’ Dean’s Fund for Excellence, the Center for European Studies and Architecture (CESA) at Riva San Vitale, and the Wood Enterprise Institute, a student-run entrepreneurial venture managed by students in the Department of Wood Science and Forest Products in the College of Natural Resources and Environment.

From Professor Robert N. Chiang, of Blacksburg, Va., a gift establishing the R. C. Research Endowment in the College of Architecture and Urban Studies.

From the Stamps Family Charitable Foundation, of Boston, Mass., a gift to benefit the Stamps Graduate Biomedical and Veterinary Sciences Fellowship in the Virginia-Maryland Regional College of Veterinary Medicine.

From the late Harry P. Hancock Jr., of Naples, Fla., realized estate gifts to provide funding for his endowments; the Harry P. Hancock Jr. Equine Scholarship Fund, the John M. Barringer Scholarship in Management, the Martha Price Hancock Scholarship in Human Resources and the Class of ’50 Mathematics Professorship.

From James C. “Jay” Justice III, of Beckley, W. Va., in support of Lane Stadium and the Hahn Hurst Basketball Practice Center.

From John R. Lawson, of Newport News, Va., a gift providing support for Virginia Tech athletics.

From Ellen E. and Jimmie L. Wade, of Roanoke, Va., to establish the endowed Amanda Wade Fund for the Virginia Tech Carilion Research Institute (VTCRI), a VTCRI Cerebral Palsy Research Fund, and a VTCRI Executive Director’s Discretionary Fund, as well as support for the W.E. Skelton 4-H Educational Conference Center at Smith Mountain Lake.

From Joseph Campbell Turley III, of Blacksburg, Va., gifts given on behalf of his children, Joseph Chaplin Turley II, Autumn Turley Bice and her husband Kevin Bice, and Amy Turley Cyrus and her husband Chris Cyrus, creating three named endowments; the Joseph C. Turley III Athletic Scholarship, the Kevin Bice Athletic Scholarship and the Chris Cyrus Athletic Scholarship.

From Jean R. Hahn and T. Marshall Hahn Jr., of Blacksburg, Va., for the Peggy Lee Hahn Horticulture Garden and the W.E. Skelton 4-H Educational Conference Center at Smith Mountain Lake, as well as various other university and athletic funds.

From James H. Hatch of White Stone, Va., to benefit the Richard E. Sorensen Dean’s Chair and a future endowed fund in the Pamplin College of Business.

From Mr. and Mrs. Bertram R. Firestone, of Upperville, Va., a gift providing for diagnostic equipment and the general account at the Marion duPont Scott Equine Medical Center in Leesburg, Va.

From David and Barbara Calhoun, of New Canaan, Conn., continuing support for the David L. Calhoun Endowed Fund for Excellence in ACIS and the David L. Calhoun ’79 Endowment for University Honors.

From the Moore Family Foundation on behalf of the late Joseph H. Moore, of Sun City West, Ariz., providing additional funding for the VTCCA Joseph H. and Mildred R. Moore Endowed Scholarship.

From Jack M. and Helen S. Tyree, of Louisville, Ky., establishing the Jack and Helen Tyree 4-H Youth Financial Education Endowment, the Jack and Helen Tyree 4-H Teen Leadership Endowment, and to provide continuing support for the W.E. Skelton 4-H Educational Conference Center at Smith Mountain Lake.

From Nicholas and Rebecca DesChamps, of Las Vegas, Nev., gifts to benefit the J.B. Jones Legacy Fund and the Department of Mechanical Engineering.

From Theodore S. Hanson and Linda Alschbach Hanson, of Richmond, Va., in support of the field house facility and Lane Stadium.
From John Dallas Gordon, of Portsmouth, Va., a gift that will ultimately benefit the John Dallas Gordon ’60 Engineering Scholarship.

From James A. and Renae C. Pearson, of Lavonia, Ga., continuing support for the Center for Farm Management and Finance and the VTCC J. and Renae Pearson Endowment.

From the estate of Margaret Scruggs, of Philadelphia, Pa., establishing the John M. Scruggs Memorial Scholarship Endowment in the College of Engineering.

From Chester Waldron, of Charleston, S.C., gifts that will ultimately support the Chester A. and Anne H. Waldron Endowed Athletic Scholarship and the Chester A. Waldron Athletic Scholarship.

From Sherwood Payne Quillen, of Blacksburg, Va., for the Center for the Arts at Virginia Tech, the Sherwood Payne Quillen Director’s Fund for Excellence in the College of Architecture and Urban Studies, the Hahn Horticulture Garden and Virginia Tech athletics.

From Doug C. and Donna A. Curling, of Roswell, Ga., a gift in support of the Richard E. Sorensen Dean’s Chair in the Pamplin College of Business and to benefit Lane Stadium.

From Harriett Bible, of Rochester, Minn., a gift to establish the Dr. Roy H. Bible Jr. ’48 Memorial Scholarship in the Department of Chemistry.

From Thomas S. and Earlene N. Lewis, of Tucson, Ariz., a gift to ultimately benefit the Department of Forest Resources and Environmental Conservation.

From Everett and Barbara Johnson, of Turlock, Calif., a gift establishing the Keith A. Johnson, M.D. Endowment for Patient-Centered Wrap-up for the Virginia Tech Carilion School of Medicine.

From James B. and Anne R. Bell, of Blacksburg, Va., additional support for the James B. and Anne R. Bell Scholarship and establishing the James B. and Anne R. Bell Enrichment Fund, with both endowments benefiting the Department of Agricultural and Applied Economics.

From John W. Montague Jr. and Jean Skelton Montague, of Midlothian, Va., benefiting the Bud Foster Defensive Scholarship, the W.E. Skelton 4-H Educational Conference Center at Smith Mountain Lake, the P.T. Smith Memorial Golf Training Complex at the Skelton Center, the Department of Industrial and Systems Engineering, the Virginia Tech Alumni Association, the Dean and Rosina Carter Endowed Scholarship in Sculpture, the VTCC Campbell Thunder Project, and the Virginia and Billy Skelton Endowed Memorial Scholarship.

From Betty M. Petty, of Vero Beach, Fla., a gift to create a future designation at Virginia Tech.

An anonymous donation to establish an endowed fund for capstone design projects in the Bradley Department of Electrical and Computer Engineering.

From Georgia Anne Snyder-Falkinham, of Blacksburg, Va., support for the W.E. Skelton 4-H Educational Conference Center at Smith Mountain Lake, men’s basketball, and Lane Stadium.

From Mr. and Mrs. James W. Severt, of Martinsville, Va., to benefit the Visitor and Undergraduate Admissions Center and the Library Excellence Fund.

From Mitchell A. and Lois E. Byrd, of Williamsburg, Va., supporting the College of Natural Resources and Environment.

From John H. and Joan E. Kroehling, of Williamsburg, Va., for the Kroehling Advanced Materials Foundry and the Virginia Tech Athletic Fund.

From Edwin Talley III and Melinda Talley, of Moneta, Va., providing additional funding for the Ed and Melinda Talley Athletic Scholarship for College of Liberal Arts and Human Sciences.

From William W. and Cornelia King, of Radford, Va., gifts to ultimately establish the William W. King Football Scholarship and the William W. King Golf Scholarship.

From Lury W. Goodall Jr. and Barbara C. Goodall, of Salem, Va., to benefit the Library Excellence Fund and the field house facility.
From Patricia P. Kelly, of Roanoke, Va., establishing the Patricia P. Kelly Teaching and Learning Graduate Fellowship in the School of Education.

From Donald J. and Joan P. McNamara, of Dallas, Texas, continuing support for the McNamara Honors Scholarship.

From Ralph M. Snyder, of Williamsburg, Va., to establish the Ralph M. Snyder ’52 Engineering Scholarship for Virginia Students.

An anonymous distribution to benefit the Marion duPont Scott Equine Medical Center in Leesburg, Va.

From Mr. and Mrs. Nicholas F. Taubman, of Roanoke, Va., for the W.E. Skelton 4-H Educational Conference Center at Smith Mountain Lake.

From Mr. and Mrs. William C. Scruggs, of Arlington, Va., to provide support for the Signature Engineering Building.

**Corporations, foundations, and organizations**

Outright gifts of $100,000 or more given to the university from July 1, 2012, through June 30, 2013.

$3,022,730 from ESKO Graphics Inc., of Miamisburg, Ohio, a gift to benefit the Department of Sustainable Biomaterials in the College of Natural Resources and Environment.

$2,200,000 from the Via-Bradley College of Engineering Foundation, of Roanoke, Va., for the H.L. Bradley Endowment in Electrical Engineering and the Charles E. Via Civil Engineering Endowment.

$940,500 from L-3 Communications Holdings Inc., of Reston, Va., in support of the Ted and Karyn Hume Center for National Security and Technology, the L-3 Faculty Fellowship in Cyber Security, and the Virginia Tech Research Center in Arlington.

$775,710 from Altria Group Inc., and Altria Client Services, of Richmond, Va., to benefit student projects in the College of Engineering, student-managed investing programs in the Pamplin College of Business, the Center for Enhancing Engineering Diversity, the Pamplin Business Leadership Center, the Pamplin Multicultural Diversity Council, the Pamplin LEAP Program, the Virginia Tech Carilion Research Institute, as well as multiple Extension research funds in the College of Agriculture and Life Sciences.

$318,041 from Smithfield Foods Inc., of Smithfield, Va., funding the Growing the Future of Local Feedstock Production and Utilization Program in the Department of Crop and Soil Environmental Sciences and the Dean’s Excellence Fund in the College of Agriculture and Life Sciences.

$300,000 from Texas Instruments Inc., of Santa Clara, Calif., for programs and research in the Bradley Department of Electrical and Computer Engineering and the College of Engineering.

$257,687 from Alpha Services, of Abingdon, Va., supporting the Department of Mining and Minerals Engineering, the Alpha Natural Resources LLC Scholarship, MSH Mine Disaster Prevention research, the Powell River Project, the Department of Accounting and Information Systems, the Virginia Tech Athletic Fund, and Lane Stadium.

$250,000 from Delta Dental of Virginia Foundation, of Roanoke, Va., to establish the Delta Dental Oral Health Teaching Endowment in the Virginia Tech Carilion School of Medicine.

$140,000 from Petro-CyberWorks Information Technology Co. Ltd., of the People’s Republic of China, supporting the SINOPEC-AspenTech Center of Excellence in Process System Engineering in the Department of Chemical Engineering.

$139,185 from the Student Engineers’ Council, of Blacksburg, Va., in abiding support of the Lynn Nystrom Engineering Organization Endowed Fund, the Signature Engineering Building, and student design projects in the College of Engineering.

$130,000 from Wells Fargo Bank and the Wells Fargo Foundation, of Minneapolis, Minn., to benefit research in the Charles E. Via Jr. Department of Civil and Environmental Engineering, the Pamplin Peer
Mentoring Program, and the Virginia Tech Summer Academy.

$125,000 from the California Institute of Technology, of Pasadena, Calif., for research in the Department of Chemical Engineering.

$120,000 from DuPont Teijin Films, of Chester, Va., in support of research within the Department of Food Science and Technology.

$110,000 from BB&T, of Winston-Salem, N.C., in abiding support of the BB&T Program in the Department of Finance, Insurance, and Business Law; the Virginia Tech Athletic Fund; and Lane Stadium.

$110,000 from Eriez Manufacturing Company, of Erie, Pa., to benefit processing engineering research in the Department of Mining and Minerals Engineering.

$110,000 from the General Motors Foundation, of Detroit, Mich., in support of student projects in the College of Engineering; the Center for Enhancing Engineering Diversity; the Computer Science-Resources Consortium; the Partners for the Advancement of Collaborative Engineering Education Program; the Design, Research, and Education for Additive Manufacturing Systems Laboratory; the Virginia Tech IT Security Office; and Career Services.

$102,301 from Newport News Shipbuilding, of Newport News, Va., in support of the Signature Engineering Building, the Virginia Tech Athletic Fund, and the General Scholarship Fund.

$101,000 from MeadWestvaco Corporation, of Covington, Va., benefiting the Center for Natural Resources Assessment and Decision Support in the College of Natural Resources and Environment and support for Career Services.

$100,000 from Comcast Cable, of Philadelphia, Pa., for the Grant A. Dove Professorship in the Bradley Department of Electrical and Computer Engineering.

$100,000 from the Volkswagen Group of America, of Auburn Hills, Mich., to benefit the Volkswagen Faculty Development and Innovation Fund and the Volkswagen Undergraduate Student Projects Fund, both within the College of Engineering.

$100,000 from the Williams-Berry Charitable Foundation, of Bristol, Va., for a future designation in the College of Architecture and Urban Studies.

$100,000 from The Wollenberg Foundation, of Menlo Park, Calif., continuing support of the Center for the Arts at Virginia Tech.

Outstanding matching gift programs

The following organizations helped to maximize the philanthropy of our alumni and friends by matching their donations to Virginia Tech at an exceptional level.

$243,800 from the ExxonMobil Foundation to match employee gifts to 41 designations.

$221,300 from the G.E. Foundation in matching gifts for 48 different funds at Virginia Tech.

$86,200 from Dominion Foundation in matching gifts benefiting 38 different Virginia Tech programs, departments, and colleges.

$79,600 from the Norfolk Southern Foundation and the Norfolk Southern Corporation Trust (Good Government Fund) to match employee gifts to 19 designations.

$62,300 from Lockheed Martin Matching Gifts providing support for 22 various funds throughout the university.

$60,200 from the Wells Fargo Foundation providing employer matches for gifts supporting 32 different designations at Virginia Tech.

$56,500 from the Ernst & Young Foundation, matching gifts to benefit 10 areas throughout the university.

$53,500 from Altria Group Inc. in matching gifts to support 19 various areas of the university.

$53,000 from the Verizon Foundation matching gift program to benefit 32 Virginia Tech programs, departments, and colleges.

Virginia Tech giving societies

Virginia Tech is proud to have some of the nation’s most loyal and enthusiastic donors, and has four giving societies to recognize them.

Ut Prosim Society members have lifetime giving of $100,000 or more on an individual or joint basis. The society has four levels: Benefactor (beginning at $100,000), Senior Benefactor (beginning at $250,000), Distinguished Benefactor (beginning at $500,000) and President’s Circle ($1 million or more).

Caldwell Society members have lifetime giving of $50,000 or more on an individual or joint basis. A member whose giving reaches $100,000 or more advances to the Ut Prosim Society.

Legacy Society membership recognizes alumni and friends who provide for the university through estate plans or other deferred gifts.

Pylon Society members have given in any amount to Virginia Tech academics for two or more consecutive fiscal years.

Members of the Ut Prosim Society, Caldwell Society, and Legacy Society are listed on the following pages. The Pylon Society’s more than 13,000 members are not all listed, but membership is noted next to the names of members of the other societies who also belong to the Pylon Society.

Ut Prosim Society

In 1987, 127 households were recognized as charter members of the Ut Prosim Society. Since then, the society has grown to 1,273 households. The society’s name comes from the Virginia Tech motto of Ut Prosim (That I May Serve).

Italic - President’s Circle charter member | * - Ut Prosim Society charter member | LS - Also Legacy Society | PS - Also Pylon Society

Caldwell Society

In the Caldwell Society’s first year, 58 households were recognized as charter members. Since then, membership has grown to 933 households, with 55 households advancing from the Caldwell Society to the Ut Prosim Society in 2013. Created in 2002, the society is named for William Addison Caldwell, the first student to enroll at what is now Virginia Tech.

* - Caldwell Society charter member | LS - Also Legacy Society | PS - Also Pylon Society

Legacy Society

The Legacy Society has grown from fewer than 100 members in 1990 to more than 1,737 members as of June 30, 2013. The society's name reflects the legacy of generosity of its members, which continues to fuel excellence at Virginia Tech.
